Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. If only we could, we surely would! On the other hand, using file can actually save you money. Simply upload your file and share the link. You don't need any kind of premium-accounts. Alternatively you can choose to share your download links on blogs, forums and social networking sites. So try our free and simple filehosting service now. No account or credit card is required to get started. It is also allowed to link to the download page from websites and communities.
