Maybe even better than free.

Simply upload your file and share the link. Files can be downloaded from any computer from our high speed servers. No account or credit card is required toget started. You can give this download link to your friends by mail or instant messenger. filehosting provides an easy possibility for you to send large files toyour friends. Alternatively you can choose to share your download links on blogs, forums and social networking sites. It is also allowed to link to the downloadpage from websites and communities. So try our free and simple filehosting service now. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. Keep your files private, or send your downloadlinks only to friends or family. You don't need any special software installed to be able to download your files. You decide who you want to share your fileswith. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. Ourservice is completely free for everyone. If only we could, we surely would! On the other hand, using file can actually save you money. Just upload the file youwant to share with your friends and we send you a download link to your file. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. When you use file, you avoid storing the fileyou're sending in your cloud storage or mail server. There are no restrictions on the number of times a file can be downloaded. Using file, you can circumventthose limits without paying to upgrade your team chat service. You can upload any type of file (movies, music, documents, images, zip files and more). Wehave no file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded anddownloaded for free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
