You don't need any special software installed to be able to download your files. filehosting provides an easy possibility for you to send large files to your friends. You decide who you want to share your files with. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card is required to get started. File is free to use with no gotchas and no hidden fees. You can give this download link to your friends by mail or instant messenger. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Any file in any format can be uploaded and downloaded for free. There are no restrictions on the number of times a file can be downloaded. When you use file, you avoid storing the file you'resending in your cloud storage or mail server. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you sharea file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Keep your files private, or sendyour download links only to friends or family. Our service is completely free for everyone. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. So try our free and simple filehosting service now. If only we could, we surely would! Onthe other hand, using file can actually save you money. It is also allowed to link to the download page from websites and communities. The cost of that datatransfer is covered by your internet service or the data plan on your phone. Simply upload your file and share the link. You can upload any type of file (movies, music, documents, images, zip files and more). Unfortunately, we can't make that part free. Just upload the file you want to share with your friends a
