Maybe even better than free.

This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of filesthat can be transferred within their apps. You can give this download link to your friends by mail or instant messenger. The cost of that data transfer is coveredby your internet service or the data plan on your phone. No account or credit card is required to get started. You decide who you want to share your files with. There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family. So try our free and simple filehosting service now. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. If only we could, we surely would! On the otherhand, using file can actually save you money. filehosting provides an easy possibility for you to send large files to your friends. Alternatively you can choose toshare your download links on blogs, forums and social networking sites. Using file, you can circumvent those limits without paying to upgrade your team chatservice. Any file in any format can be uploaded and downloaded for free. Files can be downloaded from any computer from our high speed servers. Our serviceis completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. We have no file size limit. Simply upload your file and share the link. File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.
