Canon Authorized Dealers provide the highest quality service and are supported by Canon certified technicians using Canon Genuine parts. Please contact your Canon Authorized dealer for all your service needs. Need to find a dealer Add the PS Printer KitS1 if printing PDF files. The driver may be included in your OS or you may not need a driver. Recommended Drivers File Name Date File Size Optional Drivers File Name Date File Size Recommended Software File Name Date File Size Optional Software File Name Date File Size. By parts code you can check what other devices it is used. You can print your Parts List or export to Excel to further work with it. We only help you to create your parts list for request from your suppliers. Add your headers and comments. Use saved Parts Lists as templates to create new lists. Change the contents of the old list and save it as new. You can add, delete list items, change headers, comments and quantity of spare parts. Powerful document communication. Incorporating Canon's optional uniFLOW software takes printing knowledge and cost management to a different level. It also allows you to automatically redirect prints to the most cost efficient device on the network or to control the output levels of each department.

This makes budgeting easier Confident and helps you to realise a clear control return on your investment. Documents can be held in secure mailboxes, until the relevant user is ready to print them at the device. Documents can also be encrypted before sending to others. For highly sensitive material, a watermark can be embedded into a printed document, becoming prominent when someone attempts to make a copy. This standard feature enables remote management of device settings, discovery of new devices using automated tasks, and device error notifications via email. Emails can indicate low toner, paper jams, and device maintenance problems so they can be dealt with easily and quickly, ensuring minimal downtime. Using Canon's optional eMaintenance system, device problems can be automatically reported, so there's no need to worry about constant

monitoring. All your office needs handled in one brilliant device Thanks to Canon the very best in office technology has been combined into a single device that handles everything effortlessly and simultaneously. Speed aside, performance is identical across all devices giving you the option to choose one that best suits to your deadlines and budgetary constraints. Printing is carried out using industry standard Post Script optional, PCL or Canon's unique UFR II for enhanced network processing speeds. A simple to use interface means sophisticated print jobs can be undertaken from users' desktops. A large colour touch screen makes operation at the Print at device equally simple. Both 45 ppm interfaces are also shared with Canon's Office Colour range so different devices can be used within your office without any retraining. Professional finishing Superb facilities make it easy to quality produce stapled or hole punched reports, impactful booklets and customer proposals on a variety of different media types and sizes.

<https://www.pferde-fuer-unsere-kinder.de/wp-content/plugins/formcraft/file-upload/server/content/files/162714f9061159--br-8-digital-recording-studio-manual.pdf>

For example, documents can be scanned at 45 images per minute via the document feeder, instantly encrypted and then dispatched securely as PDFs using Canon's iSend to various locations such as network folders, email addresses and mailboxes. This is all achievable without the need for additional software. Canon's iWPM software further enhances professionalism. Mailboxes act as secure storage at the device for all documents, and can be established for individuals and groups of users. You can also preview documents in your mailbox at the device before printing. Deliver communication that always impresses Bring true document versatility to your office with a choice of devices and a wide range of configurations to best suit your business environment and budget. 1 Professional finishing To create the most professional looking documents, turn to the Saddle Finisher AE2. It's even possible to create booklets Professional up to an impressive A4 in size. Output Add Canon's iWPM, and you can combine information from different sources to create a staff magazine, or even your own company brochure. Using the image reader and Canon's Universal Send feature enables you to scan documents and send them instantly to email addresses, mailboxes and network folders. Canon's ondemand fixing technology means that the device automatically enters sleep mode when not in use to save power. It's then ready to use again in seconds when needed for maximum productivity. The device also adheres to the strictest environmental standards such as RoHS, which restricts the use of hazardous substances. Combine all paper sources including the paperdeck for a maximum total of 4,950 sheets providing huge versatility from 6 different sources. Imagine producing A5 leaflets to raise awareness of key business issues or even producing A3 posters. A 50 sheet manual bypass facility accommodates heavier paper weights, allowing you to create documents using media up to 128gsm.
